Global Anchor (00485) ↘

- Universal anchor that gives you the choice of installing the anchor at the peak of the roof (up to a 12/12 pitch) or in the field using our hex head screws or duplex nails
- Fasteners included
- Used as fall arrest or fall restraint
- You can install through:
 - sheathing only*
 - sheathing into the top chord*
 - existing roofing/sheathing*

Truss Boss Anchor (00432) ↘

- Comes with weather proof cap & fasteners (with purchase of 00420 only)
- Installs in less than a minute
- Extremely cost effective
- Attach Truss Boss Anchor to truss while on the ground
- Waterproof flashing for both composite & tile roof
- Non-corrosive materials

T-T Boss Anchor Kit ↘

- Does not penetrate the top sheathing
- Comes with environmentally safe Aluminum flashing w/ vulcanized EPDM
- Cap is made of Luran-S which is highly durable unlike the competition. Our cap is designed not to blow off
- Anchor can be put on the truss while the truss is on the ground
- Hassle-free flashing design makes it extremely easy to install
- Unique design absorbs energy in a fall registering impact forces below 900 lb
- Used as fall arrest or fall restraint
